

## Climate and weathering factors

Radiation  
Precipitation  
Humidity  
Air temperature  
Wind speed  
Evaporation

## Limnic and marine factors

Water quality  
Water depth  
Addition of nutrients  
Tides  
Flow speed  
Sediment composition

## Geological/pedological factors

Parent rock (loose, firm)  
Mineral composition  
Relief  
Exposure  
Groundwater and dam water  
Soils
